# The UDS-PRO<sup>®</sup> Advantage

The UDS-PRO<sup>®</sup> System is the most widely utilized IRF PPS solution in the inpatient acute rehabilitation industry. This one-stop toolbox is chock full of real-time benchmark data, insightful management and financial reports, and up-to-the minute regulatory information.

## Feature

## Advantages

### System features

- Optional HL7<sup>®</sup> interfacing
- IRVEN and other vendor data conversions available for a historical database

### Software tools

- Preadmission module for documenting medical necessity can be e-mailed to physician for review and signature
- Projected CMG, LOS, and facility-adjusted federal prospective payment
- Case-level IRF compliance status
- FIM<sup>®</sup> Track module for admission and discharge rating assistance
- ICD code lookups, validation checks, and advanced ICD code prioritizer
- Informatics data with national and regional CMG comparative data for tier distributions, discharge settings, and FIM<sup>®</sup> ratings
- Validation between function modifiers and FIM<sup>®</sup> items for distance walked/wheeled, bowel and bladder management, and tub/shower transfer
- The Mini-FIM<sup>™</sup> assessment tool, a seven-item preadmission screening tool with admission and denial tracking
- User-defined custom fields
- CMG export file for billing
- Dynamic export for custom reporting
- Patient satisfaction module
- Export files for transmission to CMS via CMSNET (Verizon)

### Clinical expertise

- Recognized by the industry as the “clinical experts”
- Exclusive clinical and educational resources and consultative services

### Database

- Largest independent database, representing more than 840 facilities (over 75% of all IRFs in the US)
- RIC and CMG benchmarks that represent the industry and provide stable performance targets

### Reports

- Weekly refreshed national and regional comparative data
- User-friendly drill-down capabilities for RIC/CMG patient analysis
- Real-time reports, including case-mix index, 60% rule compliance, program management, goal attainment, and census
- Quarterly reports, including summary and detail reports for your executive team
- Scoring report graphs with nation-adjusted comparative data
